

## 2025 - 3rd Cycle Training Schedule

The AsiaWorks Core Curriculum comprises 3 levels, beginning with the Basic Training.

Upon completing the Basic Training, participants are eligible to enrol into the Advanced Course, after which, graduates can choose to join a 3 month Leadership Programme to practise and consolidate their learnings from the first 2 levels. Participants are not required to complete all 3 levels\* and may opt to join the next level during another cycle. However, it is highly encouraged to complete a full cycle as each succeeding level is enhanced by the momentum built during the preceding level.

**To graduate each level, participants must attend all training dates/parts specific to that particular training.**

The dates for the 3rd Cycle Training of 2025 are\*:
